

RAM/SWANA CONFERENCE

APRIL 2 + 3
TUESDAY & WEDNESDAY

MYSTIC LAKE CENTER

PRIOR LAKE, MN

2024 CONFERENCE TOUR OPPORTUNITIES

All tours cost \$15 per person. Availability is limited. Limit 1 Tour Per Person.
Tour logistics and details are subject to change at any time.

DEM-CON MATERIALS RECOVERY

(Bus Departs from Mystic Lake Center)

This single stream MRF processes 30 tons per hour. Come see how they do it!

BY THE YARD

(Bus Departs from Mystic Lake Center)

Manufactures maintenance free furniture and accessories from recycled milk jugs.

SMSC COMPOST SITE

(Bus Departs from Mystic Lake Center)

Recycles organic materials—like paper, food, and yard waste—from residential, commercial, and municipal customers. They then craft a nutrient-rich, natural fertilizer for gardening, farming, landscaping, and more.

KODA ENERGY

(Transportation Details TBD)

Environmentally friendly biomass project which is owned and operated by Rahr Corporation. Learn about this combined heat and power plant. One of only facilities in the United States that burns exclusively renewable materials in suspension - primarily agricultural and plant seed byproducts. Rahr Malting diverts their waste product from the malting process to Koda, and then uses the waste heat from the generation of electricity in their malting process, resulting in a fossil-fuel-free malt.

DUAL TOUR: MALL OF AMERICA & ARC VALUE VILLAGE

(Attendees Transport Themselves)

Mall of America

Come see how the largest mall in the United States processes back-of-house waste and recycling from over 500 stores, restaurants, and entertainment spaces.

ARC Value Village

What happens to all the household items and clothing that gets donated? See how their operations work and what gets recycled.

MYSTIC LAKE BACK OF HOUSE

(On Site)

See how Mystic separates and sorts waste, recycling, and organics from their operations
